

LakePro Enzyme

When blended with an algaecide or herbicide LakePro Enzyme accelerates the degradation of an aquatic plant or algae by working from the inside out. LakePro Enzyme releases specific biostimulants to speed decomposition and quickly fixate available nutrients. This process allows the naturally-occurring bacteria to take over degradation.

— **2.5 Gallons** —

Dosage Instructions

SHAKE WELL BEFORE USE. STORE IN A COOL, DARK PLACE. Blend with an algaecide or herbicide and adjust tank mix to a pH of 4 to 6 for best results.

REGULAR DOSE:

INITIALLY: 3 gallons per acre
MAINTENANCE: 1-3 quarts per month thereafter

POLLEN DOSE:

2 gallons per acre
sprayed on the surface

MONSTER DOSE:

For ponds that are completely covered. 15 gallons per acre
